

Motorcycle Insurance

More than a motorcycle insurance policy

What is it?

Motorcycle insurance provides financial protection if your motorcycle is involved in an accident or is damaged or stolen. Motorcycle insurance includes liability coverage in case you are responsible for another person's injuries or property damage.

Why you may need it

- You own and operate a motorcycle
- You want financial coverage to repair or replace your motorcycle if you are involved in an accident or collision
- You want liability coverage in case you are sued for causing personal injury to another person, or damage to another person's property while operating your motorcycle

What you need to know

Like any automobile, motorcycle insurance is mandatory. You must insure and register your motorcycle with your appropriate local authority before you are allowed to take it on the road.

The type of motorcycle insurance you need depends on:

- The type of motorcycle you own
- Where you store your motorcycle when it's not in use
- When and where you will use your motorcycle
- Who will be driving your motorcycle
