DEAR FELLOW SHAREHOLDERS

After an encouraging start to the year, our second quarter was the strongest in our history. Performance has been driven on a broad base of strong organic revenue growth, low loan loss provisions, and the widening of our Network's margins. We continue to be on target for growth in revenue, earnings, and market share for 2008.

2008 OBJECTIVES	
Same Store Revenue	7%-10% growth
Bank Assets	10% growth
EPS	8%-12% growth

The Network continued to increase market share, with same store sales up again from 8.1% to 9.5% year over year. Products per customer held steady at 2.2, and EBITDA margins improved to 36% in the quarter.

Bank West decreased its loan book slightly from \$283.6 million in the first quarter to \$281.2 million in the second quarter. "We continue to maintain a conservative risk profile," said Bob Marshall, President of Bank West. "The opportunities for growth are plentiful in the current market, however we continue to seek customer relationships that fit our strategic goals rather than transactions that may only provide short term profitability." The Bank's operating income grew to \$1.1 million for the six months of 2008 compared to \$246,000 for the same period in 2007.

Western Life's income posted a record first 6 months in its history, the result of stable claims ratios and strong new sales. Policy/certificate count increased from 23,952 to 26,992, premium and investment income increased 28% to \$15.5 million while operating income increased 37% to \$2.4 million for the period ending June 30, 2008.

The Company's strategic partnership portfolio, including Jennings Capital, HED, Falkins Insurance and Harvard Western, provided expected returns in the second quarter.

On behalf of the Board of Directors,

Scott Tannas, President and Chief Executive Officer
High River, Alberta

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our results of operations and financial condition should be read in conjunction with our unaudited consolidated financial statements and related notes as at and for the three and six months ended June 30, 2008 and the management's discussion and analysis and audited consolidated financial statements and related notes for the year ended December 31, 2007.

This management's discussion and analysis is dated August 6, 2008 and provides comments regarding our objectives, strategies, financial results, risk management and business outlook. Forward-looking statements involve numerous assumptions, risks and uncertainties, including the risk that prediction and other forward-looking statements may not prove to be accurate. We caution the reader not to place undue reliance on these statements, as a number of important factors could cause actual results to differ materially from the estimates and comments expressed in them. Such factors may include, but are not limited to: changing financial and economic conditions in Canada, particularly in Western Canada; regulatory developments; competition industry trends and availability of capital resources; and our anticipated success in managing our risks. We caution readers that the foregoing list is not exhaustive. Except as required by law, we do not undertake to update any forward-looking statements, written or oral, that we may make from time to time regarding our operations and performance.

The financial statements are expressed in Canadian dollars and have been prepared in accordance with Canadian Generally Accepted Accounting Principles (GAAP). We use the term "operating income" to refer to earnings, including investment income, before interest expense, deposits, taxes, depreciation and amortization of intangible and capital assets, excluding gain (loss) from the sale of long-term assets and income from long-term investments. Although operating income and operating margin, each of which are discussed herein, do not have standardized meanings prescribed by GAAP, these measures are determined by reference to our financial statements. We discuss these measures as we feel that they are some of the key indicators of the performance of our business. Operating income is used to measure corporate performance before the costs of capital and amortization of capital and intangible assets. As we continue to make acquisitions, our amortization of intangibles will continue to increase along with interest costs on funds borrowed to finance the acquisitions. In order to evaluate our longer-term sustainable performance, our management believes that operating income provides a relevant measure of our actual performance.

Business of Western Financial Group

We are a leader in providing insurance, financial services and banking services to more than 400,000 individuals and businesses in Western Canada through our WFG Agency Network (the "Network"), affiliated insurance brokers, Western Life Assurance Company ("Western Life") and Bank West.

Our primary business is the ownership and operation of WFG Agency Network, which serves over 80 communities with offices in British Columbia, Alberta, Saskatchewan and Manitoba. In addition, we have affiliated offices in 12 communities with 15 offices in British Columbia and Saskatchewan. These locations offer a broad variety of property and casualty insurance services including private auto insurance and government auto in British Columbia, Saskatchewan and Manitoba, home and farm insurance, business and specialty insurance, life products and in many locations, investment and financial services.

In addition, Western Life Assurance Company was acquired effective February 28, 2005, and brings a wide range of quality life insurance products to the WFG Agency Network offices. These include term and permanent life insurance, group benefits, health and disability insurance and loss of employment insurance. Western Life also has a network of over 2,000 brokers who sell its products. Since being acquired Western Life and the Network have worked closely in developing strategies to successfully integrate their product lines with our clients through the Network.

Bank West ("the Bank"), a Schedule A chartered bank, offers deposit and loan services, including GICs and personal and commercial loans which are offered through its own broker network as well as through WFG Agency Network locations. The Bank has been successful in developing a growing business in recreational vehicles, marine and auto dealership financing and in offering mortgage products.

Investment products are offered from many of the WFG Agency Network locations on a referral basis to Jennings Capital, a full-service investment dealer with its head office in Calgary, Alberta, in which we have a 27.5% equity interest.

WESTERN FINANCIAL GROUP INC.

ACQUISITIONS AND INVESTMENTS

In the six months ended June 30, 2008 we acquired all of the outstanding shares of the following insurance brokerage businesses: Southern Insurance Management Inc., in Lethbridge, Alberta, Simpson Insurance Ltd., in Trochu, Alberta, and Woodland Insurance Agencies, in Grande Cache, Alberta. In addition we increased our investment in Hayhurst Elias Dudek Inc. (“HED”) to 49%. In August 2006, we acquired a 25% initial interest in Hayhurst Elias Dudek Inc. (“HED”), the largest independent insurance broker/administrator in Manitoba. HED is one of the largest independently-owned insurance brokers in Canada, with approximately 190 employees nationwide. HED’s head office and the majority of the employees are located in Winnipeg, with additional offices in Toronto, Montreal and Halifax. HED offers three core product segments: i) Commercial Property & Casualty; ii) Life and Health; and iii) Pet Health Insurance through its subsidiary SecuriCan General Insurance Company, the leading provider of pet insurance in Canada, sold under the Petsecure brand.

In May 2007, we entered into an agreement with Prospera Credit Union pursuant to which we agreed to acquire all of the issued and outstanding shares of Ubiquity Bank of Canada. Ubiquity Bank is a Canadian online virtual bank that offers access to account or banking information 24 hours a day delivering financial services through non-traditional forms of banking including phone, internet, ATM, and fax. Ubiquity was founded in April 2004 and is based in Abbotsford, British Columbia. On October 1, 2007 the acquisition was completed and Bank West and Ubiquity Bank were amalgamated with the operations of the two banks consolidated under the Bank West brand.

During 2007 the Company acquired all of the outstanding shares of the following insurance brokerage businesses: the Sawchuk Group with three offices in Dawson Creek, B.C., four offices in Fort St. John, B.C., and one office in Fort Nelson, B.C. The Sawchuk Group consists of Pomeroy Insurance Services Ltd., J.W. Baker Insurance Agencies Inc., Northland Insurance Services Ltd., and Geer and Spice Insurance Agencies Ltd. Additional acquisitions in British Columbia (B.C.) include Sawchuk Financial Services Inc., in Dawson Creek, B.C., McDonald Bychkowski and Holland Ltd. and 411248 B.C. Ltd., in Vernon, B.C., and Blonde and Blonde Ltd., in Kelowna, B.C. The Company acquired Nielsen and Wolfe Agencies Ltd. in Morin, Alberta, 601369 Alberta Ltd. in Lac La Biche, Alberta, 601369 Alberta Ltd., Younger and Holmes Limited, 999416 Alberta Ltd., 999400 Alberta Ltd., and Fimac Insurance Ltd. in Peace River, Alberta, Oncescu Agencies Ltd. in Assiniboia, Saskatchewan and Early Insurance Ltd. in Thompson, Manitoba. The Company also acquired the remaining 75% outstanding shares of Northcountry Insurance Agencies Ltd. serving seven communities in B.C., and certain assets of Butler Byers Insurance Ltd.

Key Business Drivers

Our management has identified certain key business drivers to assist it in managing and evaluating the progress of our business, especially the largest component of our business, the Network. These drivers consist of both financial and operational indicators. For the Network we track **same-store revenue** change, from one period to the next. As we continue to add branch offices to the Network through acquisitions it is important for us to track the revenues of the Network’s existing branch offices. As we continue to add new products through the sale of P&C insurance and the addition of financial service products through the Network, we expect the average number of products we sell to existing customers to increase. To analyze this, we track the **products per customer account (PPCA)**. We also track the Network's year-to-date annualized percentage change in **same-store customer account** increase. With Western Life we track the increase in the **policy and certificate count**, and with Bank West we are focused on the growth of our **loan book**. Corporately we are looking at our **return on equity** and the increase we are able to achieve over the next few years. The table below shows our key business drivers.

	As at June 30 2008	As at June 30 2007
Same-store Revenue (% change) ⁽¹⁾	+9.5 %	+ 8.1 %
Products per customer account (PPCA)	2.24	2.23
Same-store Customer Count (year to date annualized, % change) ⁽²⁾	+4.5 %	+ 4.9 %

Notes:

- (1) We use “operating income (loss)” to refer to earnings, before interest expense, taxes, depreciation and amortization of intangible and capital assets. Operating income (loss) is a non-GAAP measure that we use to measure our corporate performance before the costs of capital and amortization of capital and intangible assets. This measure may not be comparable to similar measures presented by other issuers and investors are cautioned that it should not be used as an alternative to “net income” or other measures of financial performance calculated in accordance with GAAP.

Results of Operations

Western Life	3,446	2,850
Corporate and all other	1,928	2,376
	\$ 20,210	\$ 16,916

Total operating expenses increased by \$3.3 million, or 19.5%, to \$20.2 million compared to \$16.9 million in the second quarter of 2007.

Operating expenses in the Network increased \$2.9 million, or 26.8%, to \$13.9 million in 2008 compared to \$11.0 million in 2007, as a result of acquisitions, and the increase in activity levels as a result of new business. Acquisition activity increased our operating expenses by \$700,000 in the second quarter of 2008. We saw an increase in salaries and wages before acquisitions of \$1.4 million due to the additional staff required to manage the sales activity in the Network branch offices and head office. In addition the second quarter reflects salary adjustments from our annual performance appraisals.

Bank West's operating expenses increased by \$200,000 or 28.5% with general office expense increases, professional and directors' fees, and acquisitions and maintenances fees again associated with the acquisitions of Ubiquity Bank in October 2007.

Western Life operating expenses increased by \$600,000 or 20.9% primarily due to an increase in commission expense in the quarter, which are in direct correlation to the increase in net premium income for the quarter of \$1.3 million.

Corporate and all other segment expenses decreased \$400,000 in the quarter to \$1.9 million in 2008 compared to \$2.4 million in 2007. We were able to reduce the production costs and received credit for advertising placement with the magazine we deliver to the Network clients and our local businesses.

Bank West's gross interest revenue increased by \$4.2 million to \$9.5 million in 2008 compared to \$5.3 million in 2007 from organic growth and the acquisition of Ubiquity Bank. Bank West had an increase in premium financing interest of \$180,000 from the monthly financing of insurance policies for the Network, an increase in mortgages and personal loan interest of \$3.8 million and an increase in investment and leasing interest of \$300,000. Customer deposits increased by \$86.9 million to \$255.6 million in 2008 from \$168.7 million as at June 30, 2007 which drove interest and commission expense higher by \$3.2 million. As a result, Bank West's net interest and other revenue after provisions for loan losses increased by \$1.1 million to \$2.7 million in 2008 compared to \$1.6 million in 2007. Mortgages and other loans before provisions for loan losses increased 57.9% to \$281.2 million in 2008 from \$178.1 million as at June 30, 2007.

WESTERN FINANCIAL GROUP INC.

Operating Expenses (in \$ thousands)	Six months ended June 30	
	2008	2007
The Network	\$ 26,568	\$ 21,146
Bank West	1,711	1,340
Western Life	6,569	5,498
Corporate and all other	4,290	4,556
	\$ 39,138	\$ 32,540

Total operating expenses increased by \$6.6 million, or 20.3%, to \$39.1 million in 2008 compared to \$32.5 million in 2007.

Operating expenses in the Network increased \$5.5 million, or 25.6%, to \$26.6 million in 2008 compared to \$21.1 million in 2007. Our increases in expenses are normally the result of new acquisitions and the increase in activity levels as a result of new business. Acquisition activity increased our operating expenses by \$1.2 million in the first six months of 2008. We saw an increase in salaries and wages before acquisitions of \$2.8 million. Approximately \$1.7 million comes from the additional staff required to manage the sales activity in the Network branch offices and salary adjustments for annual performance appraisals. We had job vacancies last year in the first quarter that we filled throughout the year that reduced our expected expenses in 2007. This increase equates to an average of one new staff member per branch. We also saw an increase in commissions of \$500,000 which is a result of our increase in revenue. We saw an increase of approximately \$600,000 in our head office staffing. Again at head office we were not fully staffed in 2007. We are now staffed to support the growth of our network, and staffed to manage our extensive audit and compliance requirements. As a percentage of revenue, salaries and wages including producer commissions increased to 49% compared to 47% in 2007. We expect salaries and wages as a percentage of revenue to generally run at approximately 50.0%. We spent an additional \$600,000 in advertising and promotion. This is from the growth of the Network and the ongoing branding of Western Financial Group in our communities. Finally we saw an increase of \$400,000 in rent expense as we identified and relocated branch offices when required.

Bank West's operating expenses increased by \$400,000 or 27.7% with general office expense increases, professional and directors' fees, and acquisitions and maintenances fees again associated with the acquisitions of Ubiquity Bank in October 2007.

Western Life operating expenses increased by \$1.1 million or 19.5%. Western Life continues to demonstrate efficient control of expenses and slightly lower loss ratios at 42.4%. Commission expenses account for \$900,000 of the increase but are in direct correlation to the increase in net premium income.

Corporate and all other segment expenses decreased \$300,000, to \$4.3 million in 2008 compared to \$4.6 million in 2007. We were able to reduce the production costs and received credit for advertising placement with the magazine we deliver to the Network clients and our local businesses reducing expense \$400,000. This savings was offset by additional consultant and professional fees.

Income from long-term investments

Income from long-term investments saw a slight decrease with investment income at \$1.5 million in 2008 compared to \$1.6 million in 2007. Our investments include Jennings Capital Inc., Harvard Western Ventures Inc., Falkins Insurance Group Limited, Hayhurst Elias Dudek Inc., and Archibald Clarke & Defieux Insurance Services Inc.

Interest and financing costs on long-term debt

Interest and financing costs decreased to \$1.1 million from \$1.4 million. This is a result of a decrease in interest expense from the conversion of \$15.0 million of subordinated convertible redeemable debentures.

Amortization of intangible assets

Amortization of intangible assets increased \$200,000, to \$630,000 in 2008 (2007-\$400,000) as a result of the increase in the amount of intangible assets from \$23.6 million in 2007 to \$27.2 million in 2008. The change in intangible assets is a result of acquisitions completed in 2007 and 2008.

Liquidity and Capital Resources

Total shareholders' equity as at June 30, 2008 was \$207.6 million compared to \$198.4 million at December 31, 2007. This change is from the increase of \$5.2 million in retained earnings and the increase in share capital with the conversion of \$5.0 million of subordinated convertible redeemable debentures. In addition we had an increase in our accumulated other comprehensive loss on the unrealized net loss on available for sale financial instruments of \$1.0 million reducing our shareholders' equity.

We expect our capital resources will be sufficient to satisfy our financial requirements, which include business acquisitions and capital expenditures. Capital resources include cash, funds raised through equity financings, available senior bank debt and funds generated from operations.

We have a credit facility to a maximum of \$40.0 million negotiated with a Canadian chartered bank. As at June 30, 2008, \$35.8 million of this facility had been utilized. Pursuant to the terms of this credit facility, we make monthly loan payments of \$358,000 plus interest. Repayment of the credit facility is dependent upon annual renewal. In the event the Bank of Montreal elects not to extend the initial period, the facility will convert to a two-year committed term facility for all amounts due there under. At June 30, 2008 we were in compliance with the financial covenants of our senior credit facility.

At June 30, 2008, we had a total of \$1.0 million of unsecured subordinated notes with interest payable semi-annually at 12% per annum. The notes are redeemable by the Company after March 2010.

At June 30, 2008 we had cash of \$24.6 million as compared to \$36.0 million at December 31, 2007. Operations contributed \$8.7 million (2007-\$9.6 million) and non-cash working capital decreased by \$6.5 million (2007- increased \$7.3 million) primarily from the decrease in our accounts payable of \$8.1 million (2007-increase \$7.0 million). Payments were made for investments and acquisitions that were set up as a payable at December 31, 2008. Cash used in investing activities was \$8.1 million (2007-\$43.5 million). This was used to increase our investment in Hayhurst Elias Dudek Inc. We also used \$2.3 million for acquisition of insurance brokers. We made repayment of \$1.8 million with our senior credit facility and had an advance of an additional \$10.0 million for investments and acquisitions. We decreased our customer deposits supporting our customer loans at Bank West by \$27.7 million as we utilized cash and cash equivalents and decreased our loan portfolio \$8.6 million. Finally we paid dividends of \$2.4 million. This resulted in a decrease in cash and cash equivalents for the year of \$11.4 million.

RELATED PARTY TRANSACTIONS

Related parties include directors, officers and their related companies. The prices and terms of transactions with related parties are in accordance with normal business practice and recorded at the exchange amount. Interest of \$ nil (2007 - \$10,000) was paid to Jennings Capital Inc., an affiliated Company in which a director holds an interest, for an investment margin loan. Dividend income on preferred shares of \$160,000 (2007 - \$526,000) and income from equity investments of \$230,000 (2007 - \$851,000) were accrued with respect to our investment in Jennings Capital Inc. Fees for computer service of \$ nil (2007 - \$50,000) were accrued for services provided to Jennings Capital Inc. Dividends on preferred shares in the amount of \$ nil (2007 - \$2,000) were accrued to a company controlled by a director.

WESTERN FINANCIAL GROUP INC.

SUBSEQUENT EVENTS

Subsequent to June 30, 2008 the Company entered into memorandums of understanding and term sheets with respect to the acquisition of insurance brokerage businesses for an estimated net cost of \$6.5 million.

Outstanding share data

At June 30, 2008 the balance of issued common shares was 49,451,906 for a total value of \$117.2 million. We issued 13,889 common shares with the conversion of our preferred shares series two cancelled 17,000 shares under the terms of an issuer bid, issued 40,500 pursuant to stock options exercised and issued 1,666,666 upon conversion of subordinated convertible redeemable debentures. At the date of this report the balance of issued common shares was 49,451,906.

We have a fixed stock option plan under which we may grant options to directors, officers, shareholders and consultants to an aggregate maximum of 1,600,000 common shares. There were 643,000 options outstanding at June 30, 2008.

DISCLOSURE CONTROLS AND PROCEDURES

The Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the Company's disclosure controls and procedures as at the financial year ended December 31, 2007. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as at June 30, 2008 to provide reasonable assurance that material information relating to the Company, including its consolidated subsidiaries, would be made known to them by others within those entities.

INTERNAL CONTROL OVER FINANCIAL REPORTING

As at the financial year ended December 31, 2007, the Chief Executive Officer and Chief Financial Officer evaluated the design of the Company's internal control over financial reporting. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design of internal control over financial reporting was effective as at June 30, 2008 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Canadian GAAP.

There have been no changes in the Company's internal control over financial reporting that occurred during the most recent interim period ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

CHANGES IN ACCOUNTING POLICIES

CAPITAL DISCLOSURES, AND FINANCIAL INSTRUMENTS DISCLOSURES AND PRESENTATION

Commencing January 1, 2008, the Company adopted new accounting standards required by the Canadian Institute of Chartered Accountants (CICA) relating to Capital Disclosures - CICA Handbook section 1535, Financial Instruments Disclosures - CICA Handbook section 3862, and Financial Instruments Presentation - CICA Handbook section 3863 as well as other amendments to the CICA Handbook sections and accounting guidelines resulting from the issuance of these sections. The Company has adopted these standards prospectively.

Under CICA Handbook section 1535, the Company is required to disclose its objectives, policies and processes for managing capital; information about what it regards as capital; whether it has complied with any capital requirements, and the consequences of not complying with these capital requirements. CICA Handbook Sections 3862 and 3863 replace section 3861 - Financial Instruments Disclosure and Presentation. Section 3863 carries forward unchanged the related presentation requirements of Section 3861 while Section 3862 requires enhanced financial instrument disclosures focusing on disclosures related to the nature and extent of risks arising from financial instruments and how the entity manages those risks.

FUTURE ACCOUNTING CHANGES

The CICA Accounting Standards Board (AcSB) confirmed in February 2008 that International Financial Reporting Standards (IFRS) will replace Canadian Generally Accepted Accounting Principles (GAAP) effective January 1, 2011 for Canadian profit oriented

WESTERN FINANCIAL GROUP INC.

publicly accountable entities. The Company will be required to adopt IFRS for fiscal periods commencing January 1, 2011, and is currently assessing the potential impact of this change and developing a plan accordingly.

CAPITAL MANAGEMENT

The Company's capital management framework is designed to maintain adequate levels of capital in order to build long-term shareholder value, meet regulatory capital requirements of our subsidiary companies, maintain leverage targets determined by the Board of Directors, and support internal capital needs assessments including funding of future business acquisitions. Capital funds are managed in accordance with policies and plans that are regularly reviewed and approved by the Board of Directors taking into account forecasted needs and markets. Capital is primarily comprised of common share capital, preferred share capital, contributed surplus, other paid in capital, and retained earnings. Regulatory capital includes the addition of subordinated debentures if certain thresholds are met.

Effective November 1, 2007 the Office of the Superintendent of Financial Institutions Canada (OSFI) adopted a new capital management framework for Canadian financial institutions impacting wholly owned subsidiary Bank West. The new framework, called Basel II, introduced changes to the risk-weighting of assets and the calculation of regulatory capital. It has resulted in a shift for Bank West into lower risk-weight categories for residential mortgages and loans to small-to-medium sized enterprises and a new capital requirement related to operational risk. Overall, Basel II has not had a significant impact on the Bank's overall required level of regulatory capital when compared to OSFI's previous methodology. The Bank has implemented Basel II requirements for the reporting period ended March 31, 2008, and June 30, 2008.

The office of the Superintendent of Financial Institutions (OSFI) has established a capital adequacy measurement for life insurance companies incorporated under the Insurance Companies Act (Canada) and their subsidiaries, known as the Minimum continuing Capital and Surplus Requirements (MCCSR).

RISK MANAGEMENT

In the normal course of business, the Company is exposed to a variety of financial risks: credit risk, liquidity risk, and market risk factors including interest rate risk, and other price risk. Refer to the following sections of the 2007 Annual Report of Western Financial Group for further discussion on how the Company is exposed to and manages these risks: Management Discussion and Analysis section - page 42, and Consolidated note 25 to the Financial Statements - pages 68 to 70.

Current Outlook

The softer pricing market that we experienced in 2006 and 2007 will continue into 2008 particularly for commercial insurance. Competition among P&C insurance companies for commercial policies is expected to continue, with rates now at profitable levels. We recognize that rate increases, and consequently our commission increases, will be minimal if any for the next 12 to 24 months. We do not expect significant rate changes beyond the normal rate of inflation in the next 12 months.

We do not expect there to be significant changes to the financial services industry in general that would have a material impact on the growth of Bank West, WFG Agency Network, Western Life or Jennings Capital. We also anticipate that the life and health insurance industry will remain stable in the medium to long-term, especially in the communities in Western Canada where we operate.

WESTERN FINANCIAL GROUP INC.

(In thousands, except for per share amounts)

The interim consolidated financial statements have been prepared by management in accordance with Canadian Generally Accepted Accounting Principles and follow the same accounting policies and methods of computation as the consolidated financial statements for the fiscal year ended December 31, 2007, except as described in Note 1 under changes in accounting policies. These interim financial statements do not include all disclosures required in the annual financial statements and should be read in conjunction with the December 31, 2007 annual financial statements.

NOTE 1 CHANGES IN ACCOUNTING POLICIES

CAPITAL DISCLOSURES, AND FINANCIAL INSTRUMENTS DISCLOSURES AND PRESENTATION

Commencing January 1, 2008, the Company adopted new accounting standards required by the Canadian Institute of Chartered Accountants (CICA) relating to Capital Disclosures - CICA Handbook section 1535, Financial Instruments Disclosures – CICA Handbook section 3862, and Financial Instruments Presentation - CICA Handbook section 3863 as well as other amendments to the CICA Handbook sections and accounting guidelines resulting from the issuance of these sections. The Company has adopted these standards prospectively.

Under CICA Handbook section 1535, the Company is required to disclose its objectives, policies and processes for managing capital; information about what it regards as capital; whether it has complied with any capital requirements, and the consequences of not complying with these capital requirements. CICA Handbook Sections 3862 and 3863 replace section 3861 – Financial Instruments Disclosure and Presentation. Section 3863 carries forward unchanged the related presentation requirements of Section 3861 while Section 3862 requires enhanced financial instrument disclosures focusing on disclosures related to the nature and extent of risks arising from financial instruments and how the entity manages those risks.

NOTE 2 FUTURE ACCOUNTING CHANGES

The CICA Accounting Standards Board (AcSB) confirmed in February 2008 that International Financial Reporting Standards (IFRS) will replace Canadian Generally Accepted Accounting Principles (GAAP) effective January 1, 2011 for Canadian profit oriented publicly accountable entities. The Company will be required to adopt IFRS for fiscal periods commencing January 1, 2011, and is currently assessing the potential impact of this change and developing a plan accordingly.

NOTE 3 CAPITAL MANAGEMENT

The Company's capital management framework is designed to maintain adequate levels of capital in order to build long-term shareholder value, meet regulatory capital requirements of our subsidiary companies, maintain leverage targets determined by the Board of Directors, and support internal capital needs including funding of future business acquisitions. Capital funds are managed in accordance with policies and plans that are regularly reviewed and approved by the Board of Directors. Capital is comprised of common share capital, preferred share capital, contributed surplus, other paid in capital, and retained earnings. Regulatory capital includes the addition of subordinated debentures if certain thresholds are met.

Effective November 1, 2007 the Office of the Superintendent of Financial Institutions Canada (OSFI) adopted a new capital management framework for Canadian financial institutions impacting wholly owned subsidiary Bank West. The new framework, called Basel II, introduced changes to the risk-weighting of assets and the calculation of regulatory capital. It has resulted for Bank West in a shift into lower risk-weight categories for residential mortgages and loans to small-to-medium sized enterprises and a new capital requirement related to operational risk. Overall, Basel II has not had a significant impact on the Bank's overall required level of regulatory capital when compared to OSFI's previous methodology. The Bank has implemented Basel II requirements for the reporting period ended March 31, 2008.

NOTE 4 RISK MANAGEMENT

OVERVIEW:

In the normal course of business, the Company is exposed to a variety of financial risks: credit risk, liquidity risk, and market risk factors including interest rate risk, and other price risk. Refer to the following sections of the 2007 Annual Report of Western Financial Group for further discussion on how the Company is exposed to and manages these risks: Management Discussion and Analysis section - page 42, and Consolidated note 25 to the Financial Statements - pages 68 to 70.

CREDIT RISK – EXPOSURE:

The Company's maximum exposure to credit risk at June 30, 2008 is summarized in the following table and represents the risk of financial loss from the failure of debtors to make payments of interest and / or principal when due:

	June 30 2008
Marketable securities – held-for-trading	\$ 52,836
Marketable securities – available-for-sale	27,495

None of the past due mortgages and loans were renegotiated during the six month period ended June 30, 2008.

During the six month period ended June 30, 2008, loans with a carrying value of \$934 were determined to be impaired based on uncertainty as to the full repayment of the outstanding principal balance. There were no loans that exhibited evidence of impairment during this period that the Company did not recognize as impaired because the decline in recoverable amount was considered by management to be temporary in nature.

Temporarily impaired available-for-sale assets:

The available-for-sale assets disclosed in the following table exhibit evidence of impairment which is considered by management to be temporary in nature.

NOTE 4 RISK MANAGEMENT (continued)

LIQUIDITY RISK:

Liquidity risk is the risk that the Company will not be able to fund all cash outflow requirements as they fall due.

The Company manages this risk through management of cash flows as well as its concentration of assets and liabilities. The Bank has an Asset and Liability Committee which meets regularly to ensure proper and prudent liquidity management in accordance with industry and regulatory guidelines and Board policy. The Life Company has an Investment Committee which along with senior management ensures that prudent cash management and investment practices are followed in accordance with Board policy, and statutory requirements.

Based on the Company's historical cash flows and financial performance, management believes that the Company's cash flows from operations will continue to provide sufficient liquidity to satisfy its obligations.

The following tables present the contractual maturities of the Company's financial liabilities:

Actuarial Liabilities	30-Jun-08

MARKET RISK:

Market Risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest risk, and other price risk. The Company is exposed to interest rate price risk on monetary financial assets and liabilities that have fixed interest rates, and is exposed to interest rate cash flow risk on monetary financial assets and liabilities with floating interest rates that are reset as market rates change.

For Western Life, the actuarial assumption most susceptible to change in the short term is future investment returns. Under the prescribed valuation method, CALM, alternate interest rate scenarios are tested producing alternate policy liabilities for Individual Life insurance. The liability that is held is based on the interest rate scenario that produces the highest liability. The sensitivity to interest rate changes is, therefore, reflected in the development of the liabilities.

WESTERN FINANCIAL GROUP INC.

NOTE 4 RISK MANAGEMENT (continued)

For Western Life, the values of held-for-trading bonds and actuarial liabilities are affected similarly by changes in interest rates. The estimated impact of a 1% increase in interest rates resulting in decreased market value of held-for-trading bonds, would correspondingly decrease actuarial liabilities, resulting in a nil net impact on net income. Conversely the estimated impact of a 1% decrease in interest rates resulting in increased market value of held-for-trading bonds would result in increased actuarial liabilities resulting in a nil net impact on net income.

The Company is exposed to interest rate risk arising from fluctuations in interest rates on certain of its bank term loans payable. The Company is also exposed to interest rate risk arising from the mismatch, or gap, between the assets and liabilities of Bank West that are scheduled to mature or re-price on particular dates. The Bank uses gap analysis to measure this risk. The gaps which existed at June 30, 2008 based on the maturity date of interest rate sensitive instruments at the bank are detailed as follows:

NOTE 5 BUSINESS ACQUISITIONS

All business acquisitions are accounted for using the purchase method whereby the assets and liabilities have been recorded at fair market values and the operating results have been included in the Company's financial statements from the effective date of purchase. The allocation of purchase price is based on consideration paid and acquisition costs incurred up to the end of the current reporting period, and may be adjusted based on the outcome of contingent consideration and future acquisition related costs.

In the six months ended June 30, 2008 we acquired all of the outstanding shares of the following insurance brokerage businesses: Southern Insurance Management Inc., in Lethbridge, Alberta, Simpson Insurance Ltd., in Trochu, Alberta, and Woodland Insurance Agencies, in Grande Cache, Alberta.

NOTE 10 SUBSEQUENT EVENTS

Subsequent to June 30, 2008 the Company entered into memorandums of understanding and term sheets with respect to the acquisition of Insurance brokerage businesses for an estimated net cost of \$ 6.5 million.

NOTE 11 COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the presentation adopted in 2008.

NOTE 12 CONTINGENCIES

The Company occasionally is named as a party in claims and legal proceedings in the normal course of business. Although there can be no assurance that any particular claim will be resolved in the Company's favor, the Company having regard to existing insurance coverage, does not expect that the outcome of claims will have a materially adverse effect on the Company as a whole.

NOTE 13 SEGMENTED INFORMATION

The Company has four reportable segments: insurance brokerage, banking services, life insurance, and corporate and all other which includes travel agencies and real estate assets. The insurance brokerage segment provides a variety of property, casualty, life and health, and investment products and services to customers across Western Canada through WFG Agency Network. The banking segment commenced operations in January 2003 and provides premium financing to customers of the insurance segment as well as loans and mortgages to other customers through Bank West. The life segment offers a range of disability products along with group life and health through WFG Agency Network and other distribution channels.

The results of these business segments are based on the internal financial reporting systems of the Company. The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements.

Management monitors the financial performance of WFG Agency Network based on operating income and customer accounts receivable. The operations of Bank West, and Western Life are monitored based on net income before income tax; the financial position is monitored based on net assets used in that segment as reported in the financial statements of Bank West and Western Life.

Because of the integrated nature of the Company's operations, all other assets, including intangibles and goodwill, are managed and reported at a corporate level. Goodwill is, however, allocated to reporting units within each segment for purposes of impairment testing. All amortization expense and interest on long term debt is recorded as a corporate expense.
